2 wireless, boundless series

We at ArtSound love music. That's why we do our utmost to give you an easy, boundless listening experience. By making our Flat and Happi loudspeakers wireless, for instance. No external amplifier needed, it's already built in. And it's Class D, so together with the patented drivers you get an unprecedented sound quality, for an ultimate listening experience of absolute purity. To make listening even easier, the inwall speakers support any source, even wireless. The Bluetooth® functionality lets you stream whatever playlist or radio station. Why wait, music lovers? Get active!

THE WATER REPELLENT HAPPI SERIES

Happi is a Finnish word which means open, oxygen. Our 2 wireless Happi loudspeakers are open for any listening fun, both indoors and outdoors. This design has an extremely thin chassis. Both speakers are sufficiently powerful to fill spaces like your kitchen, veranda or humid bathroom with the music you want.

THE INVISIBLE FLAT SERIES

The frame of the 4 wireless Flat loudspeakers is 1mm wide and 4mm thick, and feels silky to the touch. The wireless loudspeaker treats you to a remarkably warm sound. In other words: the pure essence.

- 2 way speaker
- Ultraflat design
- 2 x 45W performance
- Bluetooth connection
- Easy installation
- 2 different models

Flat

- ① aluminium woofer for higher output
- ② aluminium grill with water-resistant magnetic system
- ③ swivel tweeter
